### MSRP

Species	USD
Walnut	2,500
Oak	2,100
Maple	2,100

The Hiro Barstool is a contemporary, minimal design made with traditional methods and solid wood joinery. The seat and back are fabricated from custom milled hardwood with a specially pressed curve hugging the occupant for a comfortable long term sit. The back of the Hiro Barstool supports the lower lumbar providing exemplary support while providing the upper body a wide range of unencumbered motion making it perfectly applicable for a busy breakfast nook or a bustling bar. Its light and strong frame is intently designed with specific angles and contours for exceptional comfort with varying body types. Warmth and poise flow through this chair all the way up to its rounded back handle. This truly unique conception will be the focal point of any space with its simple yet refined details. Pictured in natural oak with a hand-rubbed oil & wax finish.
